

§ 24.80

27 CFR Ch. I (4–1–03 Edition)

may not begin until authorized by the appropriate ATF officer.

(c) *Procurement of spirits.* Where the approved application provides for the use of wine spirits in experimental wine operations, such spirits may be procured to the extent stated in the approved qualifying application. However, an application will be filed with the appropriate ATF officer and authorization obtained for each wine spirits procurement.

(d) *Records.* All approved qualifying documents and applications will be retained in the files of the institution and will be exhibited on request to appropriate ATF officers. No reports concerning wine or wine spirits need be filed unless required by appropriate ATF officer, but records appropriate to the experiments to be conducted and records documenting the disposition of the wine and wine spirits will be retained and will be made available for inspection by appropriate ATF officers. If wine spirits are used, the records will show the quantities of spirits received and used each day.

(e) *Discontinuance.* When an institution discontinues experimental wine operations, all remaining wine or wine spirits will be disposed of either by destruction or shipment to premises authorized to receive wine or wine spirits. A letter application will be filed with the appropriate ATF officer and authorization obtained prior to the destruction or shipment of the wine or wine spirits. When the authorized destruction or shipment has been completed, a letter notification will be sent to the appropriate ATF officer. (Sec. 201, Pub. L. 85–859, 72 Stat. 1331, as amended (26 U.S.C. 5042))

FORMULAS

§ 24.80 General.

The proprietor shall, before production, obtain approval of the formula and process by which special natural wine, agricultural wine, and other than standard wine (except distilling mate-

rial or vinegar stock) are to be made. The formula must be prepared and filed on ATF F 5120.29, Formula and Process for Wine, in accordance with the instructions on the form. A nonbeverage wine formula will show the intended use of the finished wine or wine product. Any formula approved under this section will remain in effect until revoked, superseded, or voluntarily surrendered. Except for research, development, and testing, no special natural wine, agricultural wine, or, if required to be covered by an approved formula, wine other than standard wine may be produced prior to approval by the appropriate ATF officer of a formula covering each ingredient and process (if the process requires approval) used in the production of the product. (Sec. 201, Pub. L. 85–859, 72 Stat. 1380, as amended, 1381, as amended, 1386, as amended, 1395, as amended (26 U.S.C. 5361, 5367, 5386, 5387, 5555))

(Approved by the Office of Management and Budget under control number 1512–0059)

[T.D. ATF–299, 55 FR 24989, June 19, 1990, as amended by T.D. ATF–409, 64 FR 13684, Mar. 22, 1999]

§ 24.81 Filing of formulas.

The proprietor shall on each formula filed designate all ingredients and, if required, describe each process used to produce the wine. The addition or elimination of ingredients, changes in quantities used, and changes in the process of production, or any other change in an approved formula, will require the filing of a new ATF F 5120.29. After a change in formula is approved, the original formula must be surrendered to the appropriate ATF officer. The proprietor shall serially number each formula, commencing with “1” and continuing thereafter in numerical sequence. Nonbeverage wine formulas will be prefixed with the symbol “NB.” The appropriate ATF officer may at any time require the proprietor to file a statement of process in addition to that required by the ATF F 5120.29 or any other data to determine whether the formula should be approved or the approval continued. (Sec. 201, Pub. L.
